

Community Support

The GSL Board would like to express their appreciation to Michaywe and the Pines Golf Course. MOA general manager Todd Chwatun graciously donated the equipment and time this spring to apply weed killer to the entire soccer field complex. Jim Olli, Pines course superintendant, and Mike selected an absolutely perfect day for the application. Weed killer is typically applied to the soccer fields every other year and the expense can be enormous. With local business willing to donate such as Michaywe it helps keep rising maintenance costs in check.

We would also like to thank Gerry Peck and Peck Builders for the use of a utility trailer to haul the equipment.

We encourage all of our members to return the favor and make a trip to Michaywes' Inn the Woods Restaurant and the Pines golf course. Or if you need some general contractor work give Gerry a call. Let them know yourself what it means to have such strong support in our wonderful town.
